SUMMARY

Data analytics and operations professional with 10+ years of experience in airline revenue management, sales analytics, and logistics data, leading cross-functional teams to standardize enterprise datasets and automate booking workflows.

EDUCATION

Bachelor of Business Administration, Finance, Investment & Banking

August 2013

University of Wisconsin–Madison, Madison, WI

Cumulative GPA: 3.46

PROFESSIONAL EXPERIENCE

Senior Data Analyst

September 2024 – Present

Samsung SDS, Pangyo, Korea

- Lead a six-person task force to standardize freight volume classification across six regions and 10 organizations, creating one authoritative company-wide dataset.
- Trace discrepancies in SQL, redesign four aggregation rules, restore 28,306 forty-foot equivalent units (FEU) of 2025 volume, and reduce anomalous records from 0.80% to 0.56% in two months.
- Diagnose customer journey friction on Cello Square, Samsung SDS's digital freight platform, using Google Analytics 4 (GA4) and Google Tag Manager; identify rate-search and quote-delay issues linked to customer drop-off and recommend improvements.
- Design dashboards and retention tracking for a cosmetics express initiative targeting Korea-to-U.S./Japan demand.

Project Manager, Group Sales Optimization & Revenue Management (RM) Strategy

April 2023 – August 2024

Korean Air, Seoul, Korea

- Coordinated the 17-month Group Sales Optimizer project across PROS, JAL/ANA, and Korean Air teams to automate bookings.
- Built a reservation misuse monitoring tool, flagging 600+ cases and preventing ~\$370K in annual revenue leakage; earned the Quarterly IT Excellence Project Award.

Regional Sales Marketing Manager, Philippines Regional Office

September 2022 – April 2023

Korean Air, Manila, Philippines

- Directed a seven-person sales team across Manila, Cebu, and Guam, increasing group reservations +340% year-over-year (YoY) and restoring 80% of 2019 pre-COVID-19 volume.
- Executed seven travel fairs with the Philippine Travel Agencies Association and Korea Tourism Organization (\$2.1M revenue).

Revenue Management & Pricing Systems Manager

April 2021 – September 2022

Korean Air, Seoul, Korea

- Implemented logistic regression and random forest models in Python to analyze COVID-19 route recovery and inform forecasting and pricing.
- Evaluated Amadeus Revenue Management System (RMS) as an alternative during PROS contract renewal, contributing to \$3.32M in five-year cost savings; coached four junior colleagues.

Passenger Division Data Analyst & System Administrator

January 2017 – April 2021

Korean Air, Seoul, Korea

- Integrated 100M+ ticketing and flown records with Delta Air Lines' passenger data in nine months, creating one shared dataset for both carriers.
- Renegotiated the International Air Transport Association (IATA) Direct Data Solutions (DDS) contract during COVID-19 (\$390K savings); trained sales and planning teams through 74 hours of Data/Business Intelligence (BI) courses.

Sales Support Assistant Manager & Sales Representative

January 2014 – December 2016

Korean Air, Seoul, Korea

- Analyzed sales performance across 780+ Korean travel agencies using Oracle BI; supported the Mode Tour account across Southeast Asia and the Americas.

ADDITIONAL EXPERIENCE

Founder & Product Owner, AiMollaeBook

- Created, as a parent, a book-shaped product that keeps a mobile phone out of sight.
- Managed production through delivery, selling 2,000+ units and generating \$25K in revenue.

Independent Project, CPIM Study Web App

- Developing a web app with 1,500 questions and notes, designing the UI in Figma and testing Claude Code-generated code.

TECHNICAL PROFICIENCIES

• SQL • Python • Excel • Power BI • Tableau • Oracle BI • Google Analytics 4 • Google Tag Manager • Figma • PROS RMS • CIRIUM • Claude Code

• Project Management Professional (PMP), PMI, 2026 • Certified in Planning and Inventory Management (CPIM), ASCM, 2025

• Korean (Native) • Japanese (Fluent) • Chinese (Basic)
