Note Regarding TEC/WES Course-by-Course Evaluation

Applicant: Sukwoo Chung

Program: MS in Supply Chain and Analytics, Mays Business School (Summer 2027 entry)

I hold a Bachelor of Business Administration (Finance, Investment and Banking) from the University of Wisconsin–Madison, a U.S. institution, conferred on August 25, 2013. My cumulative GPA is 3.457 on a 4.0 scale.

Two parts of my record were completed outside the U.S.: a Fall 2012 exchange semester at the National University of Singapore, and a 2008 summer program at Korea University. I asked the program whether an evaluation is required for them, and Jana Sprayberry of the MS-SCAN program replied by email:

> "Since your grades are on your transcript for UW Madison with grades and not a T for transfer then no, you do not need that transcript evaluated. In addition the 6 hours from Korea University is not part of the application GPA calculation, and you do not have a degree from there, so no evaluation needed."

This note is uploaded in place of an evaluation report, as advised by the program.
